Dear clubmates,

Following the email forwarded John yesterday, unfortunately tomorrow's final race of the KFL season has been called off.

As noted below, it looks unlikely that a replacement date will be found in the calendar, and the season's titles and awards will be as per those published on the KFL website:

<https://kfl.canterburyharriers.org/champions.php?yr=2019>

Thank you all for the effort put in through the season and the outstanding results we've achieved!

We've been combined league runners-up twice before (2013-14) and last year (plus Women's runners-up in 2012-13), but this year's repeat of combined runners-up and Women's league champions, plus 3 individual champion medals is unsurpassed.

Let's go one better next year and win the overall combined team title!!

All the best,

Dan

Subject: KFL Rough Common

Hi All

If you haven't seen the email from Roy yet please let as many runners as you can know that due to the adverse weather we are expecting on Sunday we have unfortunately had to cancel the race. This is in light of the RSPB indicating that the wind speeds are going to be in excess of when they would normally keep the woods open and the fact that other races are also being cancelled.

This does mean that this season will have to be the 4 best races of the 5 as it looks unlikely that we could find another date without clashing with other races. Unfortunately these things happen we have no control of the weather and safety is paramount. I will get Alastair to update the winners of trophies and will be in touch as to how I get them to the relevant people, which could be dependant on when I go in for my knee replacement. It may mean having an end of season meeting somewhere, to look at what we can do for next season.

I will also publish on Facebook so that we contact as many as we can.

Regards

Dick
